The 10th ICME International Conference on Complex Medical Engineering - CME 2016
In Tochigi / Japan on August 4-6, 2016

Important Date:
January 23, 2016 - Proposals for organized sessions
January 31, 2016 - Proposals for tutorials and workshops
February 15, 2016 - Submission of papers
March 30, 2016 - Notification

Date: August **4-6** (in Tochigi), 2016

General Chair:
Prof. Koichi Hirata, Department of Neurology, Dokkyo Medical University, Japan

General Co-Chairs:
Prof. Tomonori Yamashita, Center for Medical Ultrasound, Dokkyo Medical University, Japan
Prof. Hidehiro Takekawa, Center of Medical Ultrasound, Department of Neurology, Dokkyo Medical University, Japan

Greeting Message:

Welcome

Institute of Complex Medical Engineering (ICME) is a nonprofit organization established in 2005 in Takamatsu, Japan. In the coming years of the 21st century, the theory and practice of medicine must attain greater reliability, safety, flexibility and expandability to support the healthy lives of people around the globe. To attain those goals in an efficient manner, advanced scientific knowledge and multiple innovative technologies must be integrated in health care and medicine. In other words, the objective of the institute is to construct a common solid platform for researchers, practitioners and students in both the fields of medicine and engineering.

Since 2005, the ICME has held a variety of conferences and symposiums per year. It is a great pleasure to welcome you to the 10th ICME International Conference on Complex Medical Engineering (CME 2016) in Tochigi, Japan. The objective of CME 2016 is to provide a forum for researchers, educators, engineers, neurologists, medical staff and government officials involved in the general areas of biomedical engineering to disseminate their latest research results and exchange views on the future research directions of these fields. We hope that this conference proves to be a very rewarding and valuable technical meeting.

I am looking forward to the participation of all researchers and strongly hope that through everyone's cooperation, this meeting succeeds and helps mark our era.

Thank you.

10th ICME International Conference on Complex Medical Engineering (CME 2016)

General Chair, Koichi Hirata

(Professor and Chairman, Department of Neurology Dokkyo Medical University)

International Conference on Complex Medical Engineering (CME 2016)

General Chair:

Koichi Hirata, MD, PhD
Professor and Chairman of Department of Neurology Dokkyo Medical University, Kitakobayashi, Mibu-machi, Saitama, Tochigi, 321-0293 JAPAN
